

COLLATED NAILS

The Best Gun Nails

TREE ISLAND STEEL

Halsteel® – the Best Gun Nails in the World

Through many years of innovation, the Halsteel® production process has made the best, most consistent, high quality gun nails in the world. Halsteel's unsurpassed performance is a direct result of the trust their customers have in the product line, coupled with the reputation for producing the finest gun nails made to the highest standards. Halsteel® currently manufactures plastic and paper collated nails in all sizes that fit most nail guns in today's market.

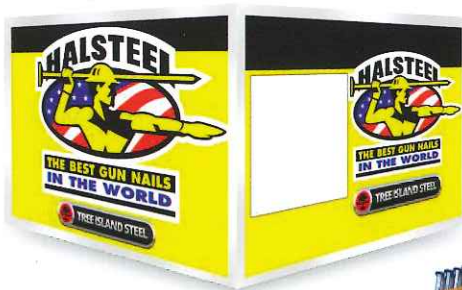

- Virgin plastic collation process eliminates misfires (as opposed to recycled plastic which may contain imperfections).
- Nail points are consistent in measurement and guaranteed to penetrate under correct usage.
- Two strips can be loaded into the nail gun magazine and will not cause jams.
- Nails are domestically made and tested to optimize performance.
- Meets ASTM F1667, ASTM A153 Class D for hot dipped galvanized, ASTM C514 for stainless steel, ICC Certified ESR 1768 and Los Angeles RR 25895 Ring, Screw, or Hardware standards.
