## GALVANIZED FENCE WIRE

### Vineyard/Orchard & Fence Wire

High quality, high tensile, smooth steel vineyard wire for long lasting trellis applications.

Tree Island Steel offers a variety of wire sizes and tensile strengths for numerous applications.

Available coatings: Commercial, Class 1 and Class 3

Sizes: 8, 9, 10, 11, 12, 12.5, 13 & 14 Gauge

### Available tensile ranges:

75 ksi max (Soft)

140-180 ksi

180-220 ksi

200+ ksi (Grade 200)

### Packaging:

Continuous: 1500-2000 lb. carrier

Catch coil 10, 50, + 100 lb.

High strength, wooden reel 100 lb.

### Catch Coils:

Tree Island Steel provides a wide assortment of catchweight coils for numerous applications.

Available with galvanized coating in several different gauges. 10 lb, 50 lb, and 100 lb coils.

### High-Tensile Fence Wire:

Easy to string and handle, you can save considerable time and money with this low cost fencing alternative. Suitable for use as permanent electrical or non-electrical fence. High elasticity and high breaking strength practically eliminates damage done by livestock, falling objects and temperature changes. Meets or exceeds ASTM A854 and can be ordered to a strength grade of 140, 180 or 200 ksi.

Available In: 32 wooden reels per pallet

**Available Coatings:** Commercial, Class 1, Class 3 zinc coatings

ISO 9001 CERTIFIED
