

HORSE FENCE

ToughStrand® Horse fencing is very strong and easy to use. The 2"x 4" non-climbing wire pattern comes in several different heights and prevents horses' hooves from stepping through the fence. The special "knots" that hold the wires together are smooth and will not cut the animals if they rub against the fence.

The Class 1 zinc coating, and the square knots holding the wire together, combine for great longevity and ease of installation over uneven land. Tree Island Horse fence will keep the horses in the paddock and other animals out.

Available in: 100' lengths - 9 per pallet.
 200' lengths - 4 per pallet.

Available Coatings: Class 1 galvanized coating.
 Sizes: Available in sizes 48" to 72" and 100' and 200' lengths.

SPACING	TOP GAUGE	LINE GAUGE	HEIGHT	ROLL SIZE	WEIGHT (LBS.)
2"x 4"	12 1/2	10	48"	100'	116
2"x 4"	12 1/2	10	60"	100'	143
2"x 4"	12 1/2	10	72"	100'	169
2"x 4"	12 1/2	10	48"	200'	231
2"x 4"	12 1/2	10	60"	200'	285
