

MERCHANT WIRE COILS

Soft and flexible, it is ideal for all purpose tying around the farm and home. Available in 9 to 17 1/2 gauge, annealed or galvanized.

Merchant wire is produced in 10 lb and 50 lb coils.

LAWN FENCE

A durable welded fence suitable as permanent boundary fencing in nearly any application. An extra-heavy coating of zinc (Class 3) protects this sturdy fence from corrosion over the long term. Scientifically designed tension curves prevent the fence from sagging and helps drain moisture. Constructed from 12 1/2 gauge wire, lawn fence is available in a variety of heights. Fence grid is 4" x 2". Class 3 coating.

GARDEN FENCE

Easy to work with, this lightweight welded fence is perfect for enclosing gardens. Variable spacing design keeps the smallest of animals away from plants. Ideal for tomato cages. The fruit is easily accessible through the large gaps in the upper mesh. Available in 35" x 50' rolls.

ELECTRIC FENCE WIRE

Ideal for adding extra security to existing conditions or for creating low cost temporary fencing and grazing enclosures. Galvanized to inhibit rust, it is available in 14, 16 and 17 gauge on handy dispensing metal spools in 1/4 and 1/2 mile lengths.

FENCE ACCESSORIES

Tree Island Steel's line of fencing accessories will help ranchers and farmers get the job done. Accessories such as T-Posts, Fencing Staples and Rebar Tie Wire are important components in a long-lasting agricultural fence. All Tree Island Steel fence accessories come in a variety of coatings, and we carry the most popular choices in the industry.

STAPLES

Tree Island Steel poultry and fence staples feature uniform points and barbed shanks to maximize ease of driving and holding power. Staples are available from 3/4" to 2" to suit almost any fencing application.

Class 3 coat is available.
