

# HIGH-CARBON WIRE

---

## Bright Duct Wire

---

Tree Island Steel's quality control procedures and special annealing and drawing processes allow us to produce the highest quality duct wire. By sourcing only the highest quality carbon raw material and implementing a stringent quality control process at every production stage, our product yields excellent ductility while meeting all physical and mechanical properties to ASTM A227 and A764 standards and specific customer requirements.

**Diameter:** 0.043" to 0.065"

**Packaging:** Reel-less coil – approx. 1,000 lb (454 kg)
